

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

KENTUCKY UTILITIES COMPANY)	
<hr/>)	CASE NO. 91-269
)	
ALLEGED FAILURE TO COMPLY WITH)	
COMMISSION REGULATION 807 KAR)	
5:006, SECTION 24)	

ORDER TO SHOW CAUSE

Kentucky Utilities Company ("KU"), which engages in the distribution of electricity to the public for compensation, for light, heat, power, and other uses, is a utility under the Commission's jurisdiction.

KRS 278.280(2) directs the Commission to prescribe rules and regulations for the performance of services by utilities. Pursuant to this statutory directive, the Commission promulgated Commission Regulation 807 KAR 5:006, Section 24, which requires a utility to submit to the Commission a summary written report of any utility-related accident which results in death or serious injury. This report must be submitted within 7 days of the accident.

Commission Staff has submitted to the Commission an Electrical Utility Accident Investigation Report dated July 8, 1991 which alleges:

1. On June 10, 1991, Wayne Prewitt was seriously injured in Lexington, Kentucky, while working on KU facilities.

2. KU submitted a summary written report of this accident to the Commission on June 27, 1991.

3. KU violated Commission Regulation 807 KAR 5:006, Section 24, by failing to submit a summary written report of this accident within 7 days of the accident's occurrence.

The Commission, on its own motion, HEREBY ORDERS that:

1. KU shall submit to the Commission within 20 days of the date of this Order a written response to the allegations contained in the Electrical Utility Accident Investigation Report which is attached hereto and incorporated herein as Appendix A.

2. KU shall appear on October 8, 1991, at 1:00 p.m., Eastern Daylight Time, in Hearing Room 1 of the Commission's offices at 730 Schenkel Lane, Frankfort, Kentucky, for the purposes of presenting evidence concerning the incident which is the subject of the Electrical Utility Accident Investigation Report, specifically the alleged violations of Commission Regulation 807 KAR 5:006, Section 24, and of showing cause, if any it can, why it should not be subjected to the penalties of KRS 278.990 for its alleged failure to comply with Commission Regulations.

Done at Frankfort, Kentucky, this 9th day of August, 1991.

FATAL: NAME OF EMPLOYER:

INJURIES:

ELECTRICAL UTILITY ACCIDENT INVESTIGATION (Continued)

LOCATION OF ACCIDENT SITE: Newtown Circle, Lexington, KY

DESCRIPTION OF ACCIDENT: A Shely crew consisting of Robert Nipper - Foreman, William Blanton - Groundman, and Wayne Prewitt - Lineman (operating from truck bucket with full safety attire) had installed a mechanical jumper to remove a cutout and lightning arrester. (See Attachment A) Mr. Prewitt attempted to disconnect the hot lead from the bottom of the cutout, having to jerk the lead loose. In so doing he inadvertently made contact with the arrester, creating a flash, resulting in burns to his face and neck.

SOURCE OF INFORMATION: Robert Nipper of Shely Construction Co., Alan Lewis of Kentucky Utilities Co., Kentucky Utilities Company Summary Written Report, and an on-site investigation.

PROBABLE VIOLATIONS OF COMMISSION REGULATIONS: The Summary Written Report was received 17 days after the accident transpired. Therefore Kentucky Utilities Co. is in probable violation of 807 KAR 5:006, Section 24; which requires that a Summary Written Report be filed within seven (7) days.

RECOMMENDATIONS: Due to Kentucky Utilities Company's probable violation of 807 KAR 5:006, Section 24, it is recommended that the Commission consider action in accordance with KRS 278.990. In addition, the Utility did not notify the Commission until 15 days

after the accident occurred. This cannot be considered timely enough to allow for a meaningful investigation by Commission staff, therefore, it is further recommended that Kentucky Utilities Co. take action to correct this notification problem on any future incident.

CORRECTIVE ACTION: Corrective action has been recommended.

ACCIDENT

How did the accident happen? (Give full details, describing equipment or other property involved and nature of work being done.)
A Shely Crew consisting of Robert Nipper - Foreman, Wayne Prewitt - Lineman,
Glen Ferrell - Lineman, and William Blanton - Groundman (Wayne was operating
from bucket truck) had installed a mechanical jumper to clear up and remove a
cutout and arrester. After installing the jumper, Wayne was taking the hot lead
out of the bottom of the cutout. He was having difficulty doing this and had
to jerk the wire. When the wire came loose he pulled it over into the bottom
of the arrester, creating a flash and causing a burn to his face and neck.

Figure 1

In order to replace the cutout, a temporary Bypass line between the Lightning Arrester and the Transformer are established.

Accident occurred when cutout was partially removed from lightning arrester node and ground line inadvertently connected with Arrester causing phase to ground short with resulting flash.
